

# GREEN DELIVERY

REDUCE WASTE  
MAXIMIZE EFFICIENCY

Interest in Green Delivery continues to grow as companies look to decrease their environmental impact, lower the cost to dispose or recycle shipping materials, and maximize deployment efficiencies. RTI has developed a unique Green Delivery solution which, when partnered with our other value added services, surpasses those of our competitors. With our Green Delivery solution we will;

- **Receive your equipment** in our environmentally controlled, secure warehouse
- **Remove all packaging materials** and dispose or recycle them, saving you time and money
- **Combine your notebooks and accessories** with one of our G'rilla branded carrying cases, embroidered with your logo, for easy deployment
- **Bulk ship your units.** Our experienced shipping team has developed a customized shipping container that minimizes waste, is easily collapsible and is recyclable

RTI takes great pride in providing your organization with an easy and affordable solution to minimize shipping waste because we understand the impact that extra shipping materials has on your environment and your budget. Our Green Delivery services can be combined with G'rilla branded carrying cases, hard drive imaging and installation services to provide you a complete solution.
