A CARRYING CASE FOR EVERY NOTEBOOK COMPUTER.

RTI takes notebook PC carrying cases seriously. When we couldn't find a product line to fit our customers' needs, we bought a factory and built our own. G'Rilla brand carrying cases are designed from the ground up by our team of experts. Our designs are based on customer requests to deliver practical, affordable and lasting products. Choose one of our standard designs or have us build a bag to your organization's specifications.
