

WE

SOURCE IT. LOGO IT.
TAG IT. IMAGE IT.
STORE IT. BAG IT.
DELIVER IT. INSTALL IT.

YOU

FORGET ABOUT IT.

Who We Are

- In 1998, RTI was established as a service company focusing on providing IT solutions nationwide. As we've grown, our continued focus on service has made us ideally suited to the public sector
- As an HP Elite Partner, we are one of the leading HP Public Sector Partners and resellers and the fastest-growing HP Partner
- Each member of our team has 12 years or more of industry experience

What We Do

- Hardware solutions customized to your exact needs
- Personalized flash drives as well as G'rilla™ branded backpacks and carrying cases—choose an existing model or create your own
- Laser engraving to uniquely identify and protect your investment
- Hard drive imaging to provide consistency and save you time
- Asset labeling and reporting to track inventory
- Warehousing in our environmentally controlled facilities and staged delivery
- PC installation and data migration to allow you to get more done with minimal down-time

How We'll Work For You

- Leverage our national partnerships for competitively priced hardware solutions, including everything from desktops to laptops, SMART™ Boards to projectors, for five or 5,000 units
- Minimize paperwork by providing one Purchase Order for your complete solution; RTI's part numbers are recognized by HP
- Offer your employees or students a customized, branded website for your employee purchasing or one-to-one initiatives. We'll create the site and manage the process from start to finish
- Receive only the highest quality products and services—we own all our equipment and warehouses, so we're able to maintain a higher level of quality and control over the entire process
- Save time and money by calling one complete, expert resource for all your needs—no one offers the same range of hardware solutions, customization, integration and deployment services as RTI
